Did **Groupthink** produce these fiascoes?

VICTIMS OF
Groupthink

A Psychological Study of Foreign-Policy Decisions and Fiascoes

By **Irving L. Janis**

This provocative book shows how Groupthink worked in the deliberations of presidents' and prime ministers' Cabinets, and of military staffs. The author examines ways of overcoming Groupthink which are applicable to business, industry, and all levels of government.

"Well worth reading . . . if only because it stimulates serious thinking."
—STEWART ALSOP,
